

# CLTAC 2020 Fall Workshop virtually on Zoom on Saturday, October 3, 2020

in association with the  
**FLANC 2020 Virtual Conference**  
(Foreign Language Association of Northern California)

13:00~13:50

**Prof. LI Zhiqiang**  
University of San Francisco

## Prof. Li will give a plenary talk on "A Model of Speech Learning in Mandarin"

According to this model, acquisition of L2 phonology includes two mapping processes, from surface phonetics to phonology (speech perception) and from phonology to surface phonetics (speech production). Phonetic realization process is constrained by phonological contrast, speech enhancement and syllable identity. Attention to phonetic details that emerge in the phonetic realization is required in pronunciation teaching to produce more natural speech output.

## Roundtable discussion on online & hybrid teaching practices and techniques

14:00~14:20

**Prof. YE Weibing**  
University of Notre Dame

"Re-Thinking Assessment for Online and Hybrid Language Courses"

14:25~14:45

**Ms. WANG Bonnie**  
Durham Academy

"From Emergent Online Teaching to Hybrid Teaching: Rethinking Proficiency-Based Chinese Programs in the New Era"

14:50~15:10

**Ms. CHEN Mingjung**  
Menlo School

"Communicate Like a Gen Z"

More information on workshop speakers and discussion topics is available at [CLTAC website](#).

For FLANC Virtual Conference, please visit [FLANC website](#).

Register the FLANC/CLTAC workshop at [Eventbrite](#). The pre-register discount ends on September 19, 2020.

Thank you and we hope to see you online on 10/3.
